Profile

Front end web developer with 5+ years of commercial experience delivering responsive, accessible and performance-focused websites for a diverse range of e-commerce and agency clients. Skilled in developing reusable UI components, platform features and client-specific frontend functionality. Comfortable working from design handoff through to production release, including collaborating with designers, QA testers, project managers, product owners and developers. Strong collaborator with experience mentoring junior developers and contributing to maintainable, scalable frontend codebases.

Selected Clients

Enterprise and premium client work delivered for brands including Gillette (Procter & Gamble), Lusso Stone, CHO, Ahume Outfitters and Moshulu.

Skills

Languages: HTML, CSS, JavaScript, PHP, Liquid

Frameworks & Tools: Tailwind CSS, React, Astro, Vite, Next.js, Kohana, Bootstrap, Sass, Git, MySQL, Lighthouse

CMS & Ecommerce: WordPress/ACF, Shopify, Visualsoft

Other: Accessibility (WCAG), Performance Optimisation, Browser & device testing

Employment History

Shopify Developer - Venture Stream (*April 2026 – June 2026*)

- Developed and amended Shopify theme sections, snippets and templates using Liquid, Tailwind CSS and JavaScript.
- Built reusable Shopify theme components and custom storefront functionality supporting multiple client implementations.
- Implemented responsive frontend fixes, accessibility improvements and maintainable theme updates.
- Worked with Shopify app integrations, customer-state logic and B2B/B2C display differences.
- Used Git sprint/feature branch workflows, pull requests and code review feedback within a multi-developer team.

Front End Developer (Freelance) - Union Room (*September 2025 – October 2025*)

- Assisted with the completion and refinement of an in-progress WordPress build using ACF, PHP, and JavaScript.
- Developed new page layouts, refining existing sections and improved responsiveness, accessibility and performance.

- Worked closely with Project Managers and developers to ensure the project met client expectations.

Front End Developer - Visualsoft *(September 2022 – February 2025)*

- Built production frontend features and reusable UI “slices” for the Visualsoft platform, made available across 600+ active client storefronts.
- Led complete front-end delivery of bespoke client storefronts from design handoff through development, testing, stakeholder review and product deployment.
- Translated Figma and design team handoffs into polished, responsive and maintainable frontend builds.
- Improved frontend performance and page quality using Lighthouse, with focus on page speed, responsive behaviour, layout stability and optimised assets.
- Applied accessibility best practices including semantic HTML, keyboard-friendly UI patterns, heading structure, form labels, focus states and ARIA attributes where required.
- Wrote detailed QA test plans covering responsive behaviour, browser/device checks, accessibility considerations, edge cases and release criteria.
- Participated in go/no-go release meetings, reviewing pull requests, testing outcomes and deployment readiness for both personal work and wider team changes.
- Mentored junior developers on frontend implementation, debugging, platform conventions and maintainable code practices.

Junior Front End Developer - Visualsoft *(September 2021 – August 2022)*

- Integrated 250+ Visualsoft features into new and existing client storefronts using PHP and CSS.
- Resolved QA issues, frontend bugs and developer tooling issues across the visualsoft platform.
- Led the go-live process, working closely with Project Managers and DevOps engineers to ensure seamless deployment of websites with fully functional features and payment gateways.

Apprentice Web Developer - PrimitiveSense Ltd. *(August 2017 – July 2018)*

- Designed and developed websites for a variety of clients to written and verbal specification.
- Created custom email templates for clients, consistent with their website designs.

Other Freelance Work

(June 2021 – Present)

- Created a Shopify store for a small business (mywitchyshop.co.uk), managing the storefront and wider web presence.
- Provided SEO and performance advice, and rebuilt their contact page, for a local print and graphics business, contributing to an 80% increase in click-through rate.

Formal Education

BSc (Hons) Applied Computing

Newcastle College *(September 2018 – May 2021)*

IT, Software, Web & Telecoms Professionals Level 3

Baltic Training *(August 2017 – July 2018)*

Certifications

Shopify Academy

- Shopify Development Fundamentals
- Liquid Storefronts for Theme Developers
